DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

The invention is directed to an image processing device for performing deletion processing of the image data. Claims 1 and 5 identifies the uniquely distinct features of suspending invalidation being performed in all areas of image data storing means ...after a predetermined code is inputted by a user...to confirm that the user who requested the suspension of the invalidation is a certified user, wherein the invalidation being performed cannot be suspended unless approved by the certified user by entry of the predetermined code. The closest prior arts, Koakutsu et al., US 6,285,459 in view of Inoue Rieko et al., JP 09-284572 further in view of Ikegami, US 6,745,334 teach image data deleting means, suspending the deletion being performed and requiring a password to perform a deletion. Either singularly or in combination with other cited references fails to anticipate or render the above underlined limitations obvious.

The prior arts, Koakutsu teaches image data invalidating means for performing invalidation of the image data stored in the image data storing means. Rieko teaches directing suspension of the invalidation being performed, permitting the suspension of the invalidation being performed. Ikegami teaches permitting a invalidation after a predetermined code is inputted by a user but references fail to disclose suspending invalidation being performed in all areas of image data storing means after a predetermined code is inputted by a certified user, wherein the invalidation being

performed cannot be suspended unless approved by the certified user by entry of the predetermined code.

The meaning of the sentences suspending invalidation being performed in all areas of image data storing means ...after a predetermined code is inputted by a user...to confirm that the user who requested the suspension of the invalidation is a certified user, wherein the invalidation being performed cannot be suspended unless approved by the certified user by entry of the predetermined code is defined in applicant's specification, see drawings 8-11, 14 with text.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
